REQUEST TO UNLOCK DOMAIN REGISTRATION

**THIS REQUEST MUST BE COMPLETED BY THE CURRENT
DOMAIN REGISTRANT!**

Due to the changes in domain transfer processes brought about by ICANN, NetFronts was forced to make domain registrations more secure. The lock that was placed on your domain name was done so to ensure that the domain could not be transferred to another registrar without your knowledge or control.

If you are able to request removal of the lock status via the email address currently listed on the domain record, then you may avoid completing this form. Email your request to domains@netfronts.com. Otherwise, please complete this form and fax it to NetFronts Domain Administration, 801-991-8889.

I, _____ (your name), am the registered owner of _____ (domain name). I'm sending this request to ask NetFronts to remove the lock status on my domain registration. Before a domain record can be updated, I understand that NetFronts is required to validate my identification and verify my ownership of the domain registration. I also understand that NetFronts is not responsible if the domain is transferred to another registrar. A copy of my driver's license or other official identification card with picture is attached to this request for your reference.

My current contact information is:

Domain Administrative Contact			
Name	_____		
Company Name	_____		
Physical Address	_____		
City	State	Zip	
Country	_____		
Phone Number	Fax Number	_____	
Email Address	_____		

To help you further with my request, my domain is currently hosted on NetFronts' server system and here is my web hosting control panel user name and password: (provide if applicable)

User name _____ Password _____ Domain not hosted at NetFronts

I realize that this form does not cancel my web hosting services for this domain or any other domain name that might be registered to me. If I plan to cancel my web hosting service with NetFronts, I am fully aware that I must submit the cancellation through the cancellation request form on NetFronts' website at <http://cancel.netfronts.com>.
